

JOINT MECHANISM SUPPORT

Combination of high biological value New Zealand Green Lipped Mussels, brown seaweed extract, vitamin E and selenium.

Powder - Ingredients : Lucerne meal, Perna canaliculus freeze dried extract (1 kg of extract contains 240,000 mg of Glycosaminoglycans) 18%, Calcium carbonate, Seaweed meal 0.5%
Additives/kg : Amino acids and salts: DL-Methionine 195,000 mg, Vitamins and provitamins: Vitamin E as a-tocopherol acetate 10,000 mg, Trace elements: Selenium as sodium selenite (E8) 10 mg
Analysis : Protein 27.9%, Ash 19%, Fibre 16.8%, Moisture 6%, Calcium 4.5%, Fat 4.2%, Sodium 0.2%

▼ Nutritional value:

Green lipped mussels are naturally rich in glucosamine, chondroitin sulphate and lipids, key constituents for joint cartilage health. **Brown seaweed**, like green lipped mussels draw from the sea an incomparable wealth of not only mineral, vitamin and trace elements which can account for up to 36% of dry matter, notably present are calcium and magnesium, both vital components for the joint structure but also algal phytonutrients (phlorotannins), which provide a wide range of potential biological activity. Lipids represent 1-5 % of algal dry matter and show an interesting polyunsaturated fatty acid composition particularly with regard to omega 3 and omega 6 fatty acids which contribute to joint health. **Selenium** and **vitamin E** contribute to the formidable antioxidant network of the horse.

▼ Usage:

Complementary feedingstuff for horses: CARTIFLEX is recommended for athletic horses for which an optimal joint function and comfort is desired, particularly during working programmes (training, racing and competing season), when the joints structures (cartilage, tendons and ligaments) are heavily solicited.

▼ Recommended administration:

Add CARTIFLEX to the feed while respecting locally applicable rules for racing and competition horses.

Standard sized horses (500 kg): 1 to 2 scoops per day (15g to 30g)
Light horses/Ponies 1/2 to 1 scoop per day (7.5g to 15g)

Pack size

• 1 kg pot with measuring scoop
