

CHONDRIL ACTIVE

JOINT MECHANISM SUPPORT

Powder - Ingredients : Glucose, Devil's claw 11,3%, Nettle 11,3%, Fish oil, Pineapple extract 2,5%, Fructo-oligosaccharides

Additives /kg : Vitamins and provitamins: Vitamin C (calcium L-ascorbate) (E302) 74 900 mg, Vitamin E (alpha tocopherol acetate) 50 000 mg. Amino acids and their salts: DL-Methionine 30 000 mg, L-Lysine (monochlorhydrate) 3 900 mg. Composed of trace elements: Manganese (monohydrate manganese sulphate) (E5) 25 000 mg, Zinc as oxide (E6) 23 000 mg, Copper (pentahydrate copper sulphate) (E4) 2 400 mg, Selenium (sodium selenite) (E8) 33 mg

Analysis : Ash 30,5%, HCl insoluble ash 8,2%, Fat 6,5%, Protein 6%, Moisture 5,5%, Sodium 1,3%, Fibre 0,3%

▼ Nutritional value:

Devil's claw, nettle and pineapple contain various identified flavanoids which are thought to contribute, along with the omega-3 fatty acids from fish oil, to the health of the joint mechanism.

Manganese along with selenium, zinc, copper and vitamins A and E are central to the antioxidant system, furthermore, the trace elements manganese, zinc and copper are reputed for their vital role in cartilage synthesis.

▼ Usage:

Complementary feedingstuff for horses: CHONDRIL ACTIVE is recommended for athletic horses for which an optimal joint function and comfort is desired, particularly during working programmes (training, racing and competing season), when the joints structures (cartilage, tendons and ligaments) are heavily solicited.

▼ Recommended administration:

Add CHONDRIL ACTIVE to the feed while respecting locally applicable rules for racing and competition horses.

Standard sized horses (500 kg): 1 scoop (= 20 g) per day
Light horses/Ponies 1/2 scoop (= 10 g) per day

Pack size

• 600 g pot with measuring scoop

Contains Devil's claw susceptible to render a positive doping test. Consult veterinary surgeon for withdrawal time.
