

# IPALIGO® EQUIL

## LIQUID MINERAL AND TRACE ELEMENT SUPPLEMENT

Complementary feedingstuff, rich in trace elements and magnesium, for balancing the feed ration of broodmares and working horses.

### Liquid - Ingredients : Saccharose, Magnesium chloride

**Additives/kg :** Composed of trace elements: Zinc as chloride (E6) 3 903 mg, manganese as chloride (E5) 2 741 mg, Copper as chloride (E4) 1 951 mg, Cobalt as chloride (E3) 39 mg, Selenium (sodium selenite) (E8) 39 mg. Aromatic substances: Glycine 22 000 mg

**Analysis :** Water 50%, Protein 2.5%, Ash 2.5%, Fat 0.8%, Fibre 0.3%, Sodium 0.2%

### ▼ Nutritional value:

The trace elements supplied in IPALIGO® EQUIL are in the chelated IPALIGO® form exclusive to Vétoquinol, which ensure an excellent bioavailability. Proven with IPALIGO® zinc in horses which increases the half life and average retention time compared to the more classic inorganic forms (chlorides ...).

### ▼ Usage:

IPALIGO® EQUIL is a liquid complementary feedingstuff for horses rich in trace elements and magnesium to help balance the feed ration. It is particularly recommended for horses in work, broodmares and growing youngsters.

### ▼ Recommended administration:

Add IPALIGO® EQUIL to the feed ration or drinking water.
