

KERABOL BIOTIN

EQUISTRO®

HEALTHY HOOF AND HAIR GROWTH

A unique complex of D-biotin, methionine and IPALIGO® zinc for healthy hair and hoof growth in combination with organic selenium and IPALIGO® manganese.

Powder - Ingredients : Glucose, Lactose

Additives/kg : Composed of trace elements: Zinc (hydrated amino acid chelated zinc) (E6) 6 650 mg, Manganese (hydrated amino acid chelated manganese) (E5) 2 000 mg, Selenium (organic form from an inactivated selenium yeast -saccharomyces cerevisiae CNCM I-3060) (E3b8.10) 16 mg. Amino acids and salts: DL-Methionine technically pure 334 900 mg. Vitamins and pro-vitamins: D-Biotin 1 300 mg
Analysis : Crude protein 20%, Crude ash 12%, Moisture 7%, Ash insoluble in HCl 6.5%, Sodium 0.9%, Crude fibre 0.3%, Crude fat 0.3%

▼ Nutritional value:

D-Biotin (the most bioactive isomer of Biotin) is an essential component for numerous enzyme systems associated with growth, bone development and epidermal tissue integrity.

Methionine, as an essential amino acid, plays a role in cysteine synthesis, the major rate-limiting amino acid for keratin synthesis. Zinc, a component of more than 200 enzymes, is vital for overall cellular function. Suboptimal levels of D-Biotin, methionine and zinc can lead to hoof skin and coat issues. Selenium and manganese constitute important powerful biological antioxidants.

▼ Usage:

Complementary feeding stuff for horses : Used daily, KERABOL BIOTIN can help stimulate hoof and hair metabolism thus favouring a shiny coat and a healthy hoof that is supple and not brittle.

▼ Recommended administration:

Add KERABOL BIOTIN to the feed. Administer daily, can be used long term, for further advice consult your veterinary surgeon.

Adult horses: Standard sized horses (500 kg)	1 scoop (= 15 g) per day
Light horses:	1/2 scoop (= 7.5 g) per day
Ponies:	1/4 scoop (= 3.75 g) per day
Foals:	Half of the above administration

Pack size

- 1 kg pot with measuring scoop
- 3 kg bucket with measuring scoop
