

MASSAGE

EQUISTRO®

WARM-UP PROGRAM

A warm-up massage gel, when starting work from cold.

Poultice for external use - Ingredients :

Eucalyptus oil, Menthol, Hamamelis extract, Arnica, sopropanol, Gel base, Colour E 131

External use gel - Ingredients:

Witch hazel and the plants contained in MASSAGE, when associated with the physical act of massaging, help generate blood flow, hence helping, as part of an integrated warm-up programme, to reduce the risk of injuries and permitting a full range of muscle activity as well as motion in the joints and associated structures for the competing horse.

Indications and use:

MASSAGE allows warming of the muscles, tendons and joints.

Use as a massage (respecting locally applicable rules governing competition and race horses).

Do not use after exercise (EPF 10 may be used for cooling down period)

DO NOT APPLY TO OPEN WOUNDS.
