

# EQUISTRO<sup>®</sup> ARTPHYTON

Joint comfort for older horses

## Powder - Ingredients :

- Blackcurrant (*Ribes nigrum*) : 3%
- Devil's claw (*Harpagophytum procumbens*) : 6%
- Horsetail (*Equisetum arvense*) : 6%
- Canadian fleabane (*Erigeron canadensis*) : 3%
- Willow (*Salix alba*) : 3%
- Glucosamine HCL : 2,5 %

## Nutritional value:

The association of blackcurrant, devil's claw, horsetail, white willow and Canadian fleabane together are reputed for their mineralising and comfort inducing properties.

The maintenance properties of the glucosamine on equine cartilage matrix have been demonstrated. The glucosamine enables normal GAG, proteoglycan and collagen synthesis by the chondrocytes and fibroblasts and hence hyaluronic acid synthesis by the synoviocytes.

## Usage:

**EQUISTRO<sup>®</sup> ARTPHYTON** is particularly interesting for horses with for chronic joints and horses requiring enhanced joint comfort.

## Recommended administration:

Add **EQUISTRO<sup>®</sup> ARTPHYTON** to the feed for periods of 10 days at a time per month.
