

# EQUISTRO® BETAMAG 12

## Behaviour serenity for athletic horses

Complementary feedingstuff rich in magnesium and vitamin B12  
For the behavioural serenity of athletic horses

### Powder - Ingredients :

- Vitamin B12 : 250 mg /kg
- Magnesium : 15 %

### Nutritional value:

**EQUISTRO® BETAMAG 12** is a combination of a rapidly available magnesium salt and a slower releasing salt in association with vitamin B12. **EQUISTRO® BETAMAG 12** has, rapid and long lasting effects, on the nervous system and muscular metabolism allowing for a healthy mental and physical performance.

### Usage:

- Athletic horse : preparation for physical exertion or a stressful situation (transport, environment change ...)
- Insufficient magnesium supply : aiding the rapid and lasting restoration of a balanced nervous and muscular metabolism (trembling, contractions, cramp...)

### Recommended administration:

Double the administration quantity during the initial 10 days in cases of deficient feed supplies of magnesium or vitamin B12 or in anticipation of a stressful situation (transport...) or large physical effort.

### Pack size

- 1 kg pot  
with measuring scoop

### Adult horses

Standard sized horses (500 kg)	1 scoop (= 25 g) per day
Light horses and ponies	½ scoop (=12,5 g) per day

### Foals

Half of the above administration

Can be administered in complete confidence in accordance with local and international rules up until the day of an official competition or race.
