

EQUISTRO® BETAMAG Forte

Behavioural stress resistance

A liquid organic complex of high biological value magnesium and zinc

Liquid - Ingredients :

- Magnesium (L-Aspartate) : 20 %
- Zinc (IPALIGO®) : 15 900 mg per litre

Nutritional value:

EQUISTRO® BETAMAG Forte is a liquid formula composed of organic magnesium and zinc that supplies the nutrients essential for the regulation of the muscular and nervous systems. The zinc, contained in **EQUISTRO® BETAMAG Forte**, is supplied in the organic complex IPALIGO® form, unique to Vetoquinol, thus ensuring an excellent bioavailability and retention as demonstrated in the horse for IPALIGO® zinc.

Usage:

Complementary feedingstuff for horses :

Supplies zinc and magnesium for the preparation of the organism for a better resistance against stress and its negative effects, in particular when a potential risk associated with change could result (changing stableyard...).

Recommended administration:

Administer in feed or drinking water. Once or twice daily for 2 weeks or longer if necessary.

Pack size

- 1 kg pot
with measuring scoop

Adult horses

Standard sized horses (500 kg)	10 to 20 ml per day
Light horses and ponies	5 to 10 ml per day

Foals

Half of the above administration

Can be administered in complete confidence in accordance with local and international rules up until the day of an official competition or race.
