

EQUISTRO[®] CARTIFLEX

Joint mechanism support

Combination of high biological value New Zealand Green Lipped Mussels, rich in glucosamine, chondroitin and MSM, brown seaweed extract, vitamin E and selenium
Supporting the entire joint mechanism health and function during and after intense effort

Powder - Ingredients :

- New zealand Green lipped mussel (*Perna canaliculus*)
- Vitamin E (alpha tocopherol) 10 000 mg
- Brown seaweed (*Ascophyllum nodosum*)
- Selenium (selenite) 10 mg

Nutritional value:

Green lipped mussels are naturally rich in glucosamine, chondroitin sulphate and MSM, key constituents for joint cartilage health. **Brown seaweed**, like green lipped mussels draw from the sea an incomparable wealth of not only mineral, vitamin and trace elements which can account for up to 36% of dry matter, notably present are calcium and magnesium, both vital components for the joint structure but also algal phytonutrients (phlorotannins), which provide a wide range of potential biological activity. Lipids represent 1-5 % of algal dry matter and show an interesting polyunsaturated fatty acid composition particularly with regarding to omega 3 and omega 6 fatty acids which contribute to joint health. **Selenium** and **vitamin E** contribute to the formidable antioxidant network of the horse's organism.

Usage:

Complementary feedingstuff for horses:

EQUISTRO[®] CARTIFLEX is recommended for athletic horses for which an optimal joint function and comfort is desired, particularly during working programmes (training, racing and competing season), when the joints structures (cartilage, tendons and ligaments) are heavily solicited.
