

EQUISTRO® EQUILISER

Intense stress support

Rich in Tryptophan and organic magnesium as well as B vitamin complexes
Helps to calm « hot headed » horses and maintain a positive mental state during
the competition period

Powder - Ingredients :

- L-Tryptophan : 100 000 mg/kg
- Vitamin B1 : 7 500 mg/kg
- Niacin (vitamine PP) : 5 000 mg/kg
- Vitamin B6 : 2 500 mg/kg
- Magnesium : 140 g/kg

Nutritional value:

EQUISTRO® EQUILISER is an important combination of L-Tryptophan, vitamins B1 and B6, niacin and organic magnesium in a formulation conceived to meet the nervous system requirements during important periods of solicitation. **EQUISTRO® EQUILISER** is equally a formula that complements a dry ration and assures a sufficient supply of nutritional elements for the nervous system.

Usage:

Complementary feedingstuff for horses, rich in L-Tryptophan, destined to maintain the balance of the nervous system during periods of stress or to help return a "hot headed" horse to a handleable state.

Recommended administration:

Administer **EQUISTRO® EQUILISER** in the feed or drinking water

- Horses : 1 scoop (= 20 g) per day
- Ponies : ½ scoop (= 10 g) per day

Pack size

- 500 g pot
with measuring scoop

Adult horses

Standard sized horses (500 kg)	begin at least 3 days before competition and administer equally the day of the competition
Competition preparation	

Calming a «hot headed» horse	administer for 10 days minimum (prolong as long as necessary)
------------------------------	---

Foals	Half of the above administration
-------	----------------------------------

Can be administered in complete confidence in accordance with local and international rules up until the day of an official competition or race.
