- Manganese (sulphate) : 1 180 mg/kg
- Copper (sulphate) : 500 mg/kg

Nutritional value:

EQUISTRO® MEGA BASE is a mineral and vitamin supplement adapted to the physiological needs of horses. It contains 4 trace elements, fat soluble vitamins and methionine (sulphur rich essential amino acid). The components have been specifically selected to optimally nourish the skeleton, connective tissues and joint cartilage thus helping the horse to maintain normal structure for as long as possible.

Given regularly, **EQUISTRO® MEGA BASE** covers the basic needs in minerals for all horses, particularly those fed on concentrates (pellets...).

By adapting the daily supply, the increasing needs are equally met during rearing or during the breaking in period.

Usage:

A comprehensive and all round complementary mineral (including trace elements), vitamin and methionine supplement for horses :

EQUISTRO® MEGA BASE is particularly adapted for horses fed on concentrates (pellets...), in normal maintenance and work conditions.

Recommended administration:

Add **EQUISTRO® MEGA BASE** to the feed or in drinking water.

Adult horses	
Standard sized horses (500 kg)	1 scoop (30 g) per day
Stallions and broodmares	2 scoops (60 g) per day
Foals and ponies	½ scoop (15 g) per day
