

EQUISTRO® SECRETA PRO-MAX

Respiratory health support

Complementary feedingstuff rich in selected and researched plants in association with vitamin E that are highly refined for a premium quality

Pellets - Ingredients :

- Black Horehound
- Grape powder
- Thyme
- Burdock
- Grindelia
- Vitamin E : 24 000 mg/kg
- Climbing Ivy
- Liquorice
- Coltsfoot
- Mullein flowers

Nutritional value:

Black Horehound and Thyme support the maintenance of a clear, non-restrictive air-way while Coltsfoot, Grindelia, Mullein and Climbing Ivy help maintain an optimal secretion production and viscosity. Thyme, Liquorice, Burdock, Grindelia and Mullein are also reputed for their support of the respiratory hygiene status.

Vitamin E, which with grape seed extract (polyphenols) has a synergistic antioxidant role and contributes to normal defence mechanisms.

Respiratory conditions are common in horses which necessitate appropriate corrective actions. In conjunction with conventional solutions and good management, dietary fortification may support the respiratory and immune mechanisms necessary for a healthy functioning. **EQUISTRO® SECRETA PRO-MAX** is an association of carefully selected and refined plant extracts, enriched with Vitamin E, targeting the healthy performance of the respiratory system.

Usage:

Complementary feedingstuff for horses:

EQUISTRO® SECRETA PRO-MAX is recommended for horses to maintain normal respiratory function and environment.
